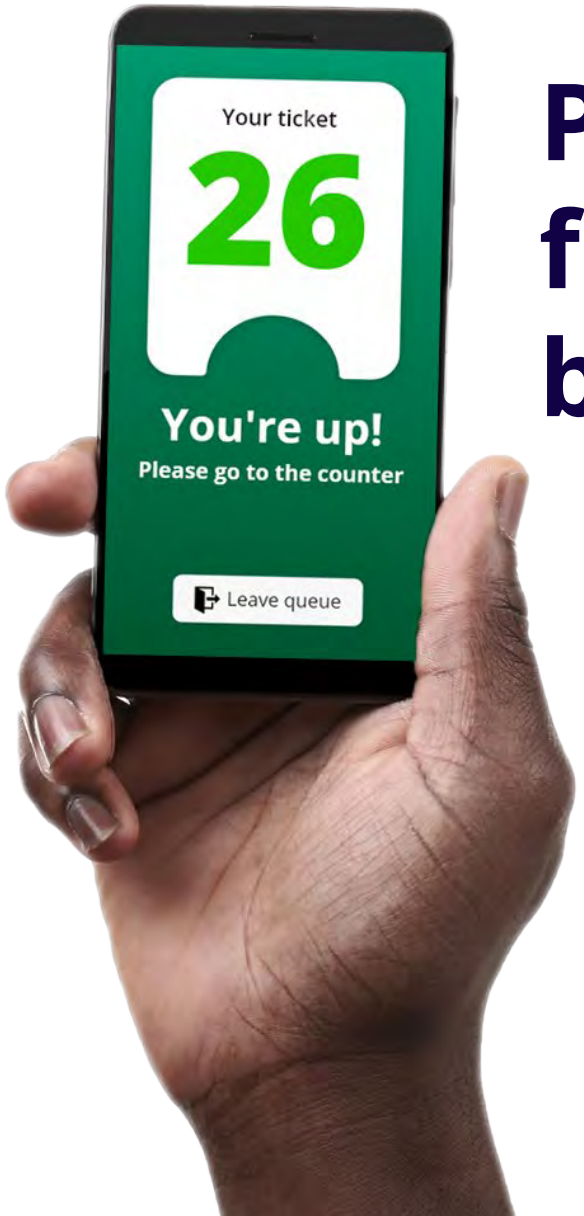
TENNER

£10

Per month



Paperless ticketing for small & medium businesses

TENNER

www.tenner.cloud

For **£10 a month**, TENNER mobile APP represents your company to greet and meet all your Walk-in Customers

Customers will not get annoyed as they have no need idling in long queues waiting for their service. With TENNER paperless ticketing, customers no longer need to stand and wait in a physical queue.

TENNER paperless ticketing lets you join a virtual queue, keep you informed and assuring your queuing position:

- ✓ **To be served**
- ✓ **To collect orders**

The high street loves TENNER

What our customers say:

"It’s been a great addition to the business and a really affordable solution. The set-up was really simple and I can see the customers have really enjoyed the experience, they no longer get turned off by having to wait in a long queue or feel people are cutting in front of them at the counter." William K, Hot food takeaway owner

"Often new systems can be difficult to get used to but this one is really simple, I only have to press next customer and it displays on the screen and the next customer comes forward in a timely manner. " Amarjit H, barbershop owner

"It’s great, I can settle down at the table with my family at the coffee shop and no one needs to physically queue up. We get called up and I can order and come back to the table. It feels less stressful." Cherry N, visiting her favourite cake shop
