Create convenience with TENNER QueueUp™. A Virtual Queue in your salon is the next step in providing your customers with great customer experience.

TENNER QueueUp™ replaces your queue and waiting area with a Virtual Queue. By using a link on your social media & website or by scanning your QR code, customers can queue for your services from the cafe down the road, on their bus ride in or from your waiting area.

There are no downloads or sign-ups required from your customer. They simply scan, queue and get served

£10
Per month*

All the above from £10 per month*, with our 30 day no quibble money back guarantee.

*Excluding VAT

Customer experience

QueueUp™ is the next step in making your customer experience even better. Now your customers are free from physical queues, they can wait for your services whilst grabbing a coffee or running errands. Create convenience and make going for a service at your business more attractive than ever with TENNER QueueUp™.

Bigger pool of customers

With QueueUp™, your services instantly become an option to those who find it difficult to find time to wait in a queue. Customers can join your queue remotely from home or work and spend their “wait time”, travelling to the your salon. This means getting customers in to your salon who would otherwise not have had the time.

From long hair, to your chair: Your customer's journey

1 Scan QR code

Customers open the link from your website or social media, or they scan your salons' QR code at the door.

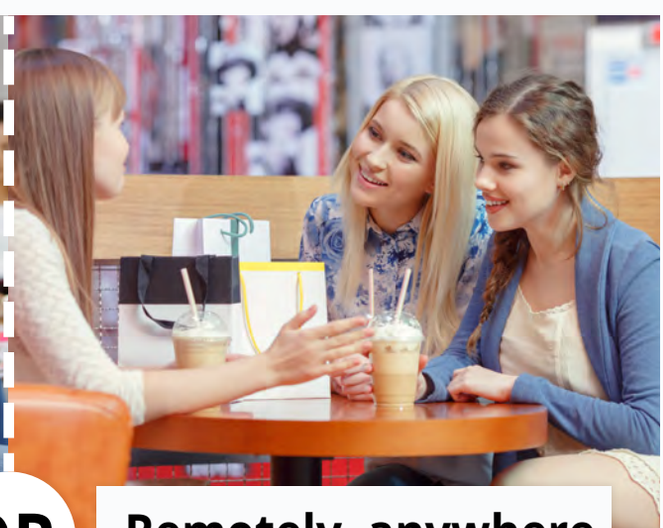
2 Select a queue

Customers then select which stylist they would like to see or they can choose to join the shortest queue.

3 Wait to be called...

At your salon

OR



Remotely, anywhere

4 Get served

Once they're next, they will be notified to return to your salon. If they are not quite ready, they can defer and be moved back one place in the queue.

Jim the Barber

How about your staff?

QueueUp™ is easy to operate. Your staff simply tap the "Next Customer" button to tell QueueUp™ that they've finished with the current customer. By that time, QueueUp™ would have already notified and bought the next customer into your salon, ready to go straight into your chair.
